

Parent Curriculum Information Sheet Summer Term 2024-25

Year 4

Mrs Parker

As readers and writers, the children will continue reading to learn new information and for pleasure through accessing a wide range of different text types. They will develop their writing in a range of styles to create varying effects for the reader.

As mathematicians, the children will continue to refine the efficiency of their calculation strategies as well as deepening their understanding of decimals, money, time, shape, statistics and position & direction. They will apply this knowledge to solve multi-step problems across a range of contexts.

As scientists, children will explore how sound is created and how it travels. They will investigate volume and pitch as part of this work. As part of their next unit of work studying electricity, children will learn about common electrical appliances and how to construct simple series circuits.

As geographers, the children will learn about rivers. Building on their prior geographical knowledge and skills, they will learn about the formation and features of a river. They will follow the journey from source to sea, making comparisons between rivers in different parts of the world.

As cricketers, the children will develop a range of fielding skills to keep a batter's score low.

As athletes, children will develop key sprinting, throwing and jumping techniques.

As footballers, children will develop their passing and dribbling skills, building up into mini games where pupils explore the transition between attack and defence.

As artists, children will explore a variety of drawing materials to develop their understanding of tone and texture. They will study the artist L.S Lowry using their research to explore tertiary colours and complete a fact file.

As citizens (PSHE), children will learn about water safety and about being responsible by coming home on time.

As linguists, children will continue to learn to speak in French, including naming different vegetables.

As computer scientists, children will develop their understanding of how digital images can be changed and edited, and how they can be resaved and reused. They will then explore the concept of repetition in programming using Scratch.

As theologians (R.E), the children will explore the impact of Pentecost for Christians. This will be used as a catalyst for bigger discussions around how and why people mark significant events in life.

As technologists, the children will explore the different tastes and textures of seasonal vegetables before creating their own healthy food product.

As musicians, children will learn how to play a 'recorder'. Children will continue to develop their listening, singing, composing, performing and improvising skills.

- Please ensure that your child has their reading book and diary in school every day.
- Please ensure that your child has their PE kit in school every day

Thank you so much for your continued support and if you have any questions, please feel free to contact me.
